December 17, 2007

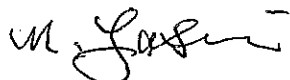

Gentlemen,

This letter is in reference to Hitachi Telecom (USA), Inc.'s (Hitel's) 850 MHz Multi Carrier Power Amplifier (MCPA), FCC ID No. HDLUSA-60750-KE-E, Hitachi model number HMC081901C and 1900 MHz MCPA, FCC ID No. HDLUSA-60751-KE-E, Hitachi model number HMC191901C.

Hitel has redesigned MCPA's ancillary equipment (duplexer/combiner filters, subracks, etc.) for size but not functionality in order to fit into a 19 inch cabinet (in place of the original 23 inch cabinet). In the process the ancillary equipment was repackaged without change of functionality however there was no change in either our 850 MHz MCPA, part number HMC081901C or in our 1900 MHz MCPA, part number HMC191901C.

Thank you for your consideration.

Sincerely,

Nick Yasui

Vice President, Business Development  
Hitachi Telecom (USA), Inc.
