

A black and white photograph showing the front view of a printed wiring board (PWB) model HM836A. The board is populated with various electronic components, including integrated circuits, resistors, and capacitors. It is connected to a power source via a two-pronged AC plug and several other cables. The board is mounted within a light-colored plastic or metal chassis. A label with the model number 'HM836A' is superimposed over the center of the image.
