

August 11<sup>th</sup>, 2003

Federal Communications Commission  
Equipment Authorization Branch  
7435 Oakland Mills Road  
Columbia, MD 21046

To whom it may concern,

DAP Technologies is requesting that the models CE8640/LS with GPRS/GSM option being certified under FCC ID: HDWAEA306 be considered to fall outside the scope of a Class B Personal Computer as given in 15.3(s) because of the following:

- 1- The device is NOT marketed through retail outlets or direct mail order catalog
- 2- The device is restricted to commercial and industrial users and will not be advertised for sale in a form that is distributed to the general public or hobbyist users
- 3- The price, performance, configuration, fit and form of the device make it worthless for the personal computer users
- 4- The device is only sold through a specialized commercial/industrial VAR network

DAP Technologies has not considered this device to be a personal computer and therefore have subjected it to Class B digital device requirements as given in 15.101.

Sincerely,

A handwritten signature in black ink, appearing to read "Michel Lapointe".

Michel Lapointe  
President  
DAP Technologies
