Dear Bill

Attached is the drawings of antenna installation for laptop which provided by our client. Please contact us if FCC need further information. Thank you very much. (See attached file: Antenna.pdf)

Regards
Emily

Alan,

Received this just today from FCC. It appears the FCC wants specific information available for OEM integrators to install antennas 20cm from all persons. I

suggest information such as drawings demonstrating "typical" installations such as in lid of laptop, or typical access point, etc.

Bill

The manual indicates use and installation for use with a laptop computer. The manual states to install the card in the mini-pci card slot but how about the antenna? It is unclear how this device(card and antenna) will be installed and how does the user maintain a 20 cm distance between the user and the antenna after installation. Please clarify and correct manual appropriately.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal pursuant to Section 2.917(c).

DO NOT Reply to this email by using the Reply button. In order for your response to be processed expeditiously, you must upload your response via the Internet at www.fcc.gov, E-Filing, OET TCB Electronic Filing, TCB Login. If the response is submitted through Add Attachments, a message which informs the processing staff that a new exhibit has been submitted must also be submitted via Submit Correspondence. Also, please note that partial responses increase processing time and should not be submitted.
