CONFIDENTIALITY REQUEST LETTER

TMU91 TRANSMITTER TECHNICAL DATA

Pursuant to FCC 0.457(d) and 0.459 of the FCC Rules we are requesting long-term confidentiality due to the fact that the applicant, Rohde & Schwarz, considers certain information to be submitted as trade secret information. Specifically, the schematics and parts lists submitted as exhibits for type certification for the above transmitter are not normally available to anyone outside of company employees. The specific files needing confidentiality are identified as:

TCE900 Ctrl Sys part list.pdf
TDU900 Part List.pdf
TM9-T1 Ampl Kit Part List.pdf
PMU901 Parts List.pdf

PMU901 Schematics.pdf
TCE900 Schematics.pdf
TMU9 Configuration Diagrams.pdf

The company has gone to great expense to develop the equipment and they could be financially harmed if another competitor were to copy the products using the schematics and parts list information and make them available for sale. The parts lists and schematic information are not supplied with customer documentation. Because of the nature of the schematics and parts lists, redacted documents are not possible. At a minimum, a period of 5 years is necessary for confidentiality for these documents.

Regards,

Gregory L Best, PE
