

Re: Change of Identification Authorization, FCC ID: QDS-BRCM1044

Date: 9-23-2009

To Whom It May Concern:

This letter grants authorization for Quanta Computer Inc. to apply to the FCC for a change in identification as specified under 47CFR2.933 of the FCC rules.

This authorization applies to Broadcom Corporation, 802.11g WLAN+BT PCI-E mini card, model BCM94312HMGB, FCC ID: QDS-BRCM1044. We are aware that Quanta intends to market the above referenced product under their own FCC ID: HFS-BCM4312HMGB.

Sincerely,

A handwritten signature in black ink, appearing to read "DL", is written over a light gray rectangular background.
