FCC ID: HFS-CD3-E01

1. Updated
2. Shown in the power rating of EUT spec of part 24 report
3. The testings are correct, but we wrongly put another project photos. The report will be updated with correct photos.
4. No, there is no body worn accessory.
5. Users manual will be updated
6. The label is too small for the statement and it will be shown in users manual.

Sincerely Yours
