RE: Quanta Computer, Inc.

FCC ID: HFS-HA1

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) The new users manual provided does not appear to be for the device being approved. The new manual discusses PCMCIA, WLAN characteristics, channels and output power that do not apply to this device. This device appears to be a frequency hopping on specific channels in the 900 MHz ISM band only. Please provide a correct manual for the TX card.

Timothy R. Johnson  
Examining Engineer
