Request for Limited Modular Approval for WWAN

FCC ID: HFS-LI170

Item	Requirements	EUT
1.	The modular transmitter must have its own RF shielding.	The modular transmitter is equipped with an own metal shielding.
2.	The modular transmitter must have buffered modulation / data inputs.	The EUT has buffer modulation / data inputs.
3.	The modular transmitter must have its own power supply regulation.	The EUT has its own power supply regulation.
4.	The modular transmitter must be tested in a stand-alone configuration.	The module was tested on evaluation board which is a stand-alone HW.
5.	The modular transmitter must be labeled with its own FCC ID number.	The module transmitter will be labeled with in own FCC ID and the integration manual contains labeling instructions for the host device into which this module will be integrated.
6.	The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements.	This modular approved transmitter complied with all applicable rules and the integration manual contains any specific requirements addressed to the integrator and/or the end-user of the final end-product.
7.	The modular transmitter must comply with any applicable RF exposure requirement.	With the dedicated antenna (2.02 dBi) the modular transmitter complies with the FCC RF exposure requirements for fixed and mobile applications.

Effective Date: Immediately.
