

Quanta Computer Inc.

Attestation Letter

I, the undersigned, attest the radio device of given application is a purely slave device without radar detection capability where the device can listen only without beacon, and does not support ad-hoc and peer-to-peer mode where associated drivers and firmware won't initiate any transmission on DFS frequencies without initiation by a master device.

Product Name: QD8

The applicant: Quanta Computer Inc.

FCC ID: HFS-QD8

A handwritten signature in black ink that reads "Joyce Kud". The signature is written in a cursive style with a large initial "J".
