

Extended Frequencies Justification

FCC ID: HLG-INTELFLEXDT

We request to have FCC authorized frequency band 450-470MHz and extended frequency band 430MHz – 470MHz appears on FCC grant.

This device also will be sold in non-US markets where use of the extended frequencies may be authorized.

The applicant also requests that the grant note code "EF" be included on the grant of Equipment Authorization to indicate extended frequencies.

The applicant will notify the end users in the US that:

1. The device is to be programmed only for the frequencies allowed by the user's radio station authorization.
2. It is a violation of FCC rules if the device operates on unauthorized frequencies.
3. This device uses extended frequencies that are not operational in US territories, except noted in the filling.
