### Home Page

Main interface as below picture 2.2-1, long press the blank and it will popup windows to set wallpaper, folder, widgets, and shortcut.

Disposal of your device in an environmentally friendly manner This symbol on the product or on its packaging indicates that the product must not be treated as household waste. Instead of and delivered to the current collection point which recycles electronic equipment. This product is correct, you will be able to prevent the potential negative consequences of environment and human health arising from waste treatment of the product. Recycling of materials will help to conserve natural resources. For more information about recycling this product, please contact your local municipality, the household waste disposal service or the shop where you purchased the product. Suggestions for Energy Saving When you do not use it, turn off the device like wi-fi, blue tooth. If necessary, disable unnecessary sounds such as application notification and key sound. Depending on what you need, reducing the brightness and volume will enable you to use energy efficiently. Proper Battery Disposal (For countries with separate collection systems) The marking on the battery, the guide and the luggage compartment indicate that this pile of battery should not be disposed with other household waste. Hg, Cd or Pb chemical symbols indicate that the battery contains mercury, cadmium or lead above the reference values specified in EC Directive 2006/66. The battery supplied with this product can not be changed by the user. For detailed information on replacement, please contact your service provider. Do not try to remove the battery or throw it into the fire. Do not disassemble, crush or punch. If you intend to dispose of the product, necessary measures will be taken in the field of waste

## USB Connection

### MID storage configuration

Before transmitting documents, you have to conduct storage configuration for your MID:

1. Connect the MID and computer by USB cable, the reminder column will show the remind information.
2. Open the reminder board; please view the MID status and reminder to learn how to open the board.
3. In the reminder board, click the “USB for file transfer”, it will as below Picture 2.3-1, then click “File transfers”.
4. Now the USB is connected successfully.

Copy the document into memory card

1. Connect the MID to computer with USB cable.
2. As MID storage configuration, it is connected with computer successfully.
3. Open the “My computer” in your computer, check the items in “MTP devices”.
4. Copy the documents you need into “MTP devices”.
5. After copying finishes, unplug the USB can.

## Quick Setting

Swipe-down gesture from the top of the screen, there are nine shortcuts icons, such as Wi-Fi, Bluetooth, Auto-rotate, and so on. 3. Click the APK you want to uninstall, click uninstall.
4. Click confirm to finish uninstallation.

# Going Online

## Managing Wi-Fi connections

If you did not connect to a Wi-Fi network when you first started your tablet, or want to connect to a new network, tap APPS>Settings> Wi-Fi to manage your connection settings. If Wi-Fi is not on, tap the Wi-Fi ON switch and wait for your tablet to detect nearby networks. Tap the name of your network and enter a security password, if needed. Alternatively, open Quick Settings by swiping down from the top-right of the screen and tap the Wi-Fi button to toggle on and off the Wi-Fi connection. Browsing the internet In order to browse the internet with your tablet, you must be connected to a network with a connection to the internet.

## Using the browser

To start browsing, tap the Chrome icon on the Home screen, or tap APPS and then Chrome. To enter a website address, tap the address box at the top of the page. Enter the address using the keyboard and tap Go.

To navigate forward and backward in your browser's history, tap the forward and backward arrows next to the search bar. To refresh the webpage tap the refresh icon between the search bar and browser history arrows. To view your bookmarks, adjust browser settings, and perform other tasks, tap the Menu icon.

Chrome enables you to open multiple tabs. When a page is open, tap the small New tab button. Simply tap one of the open tabs across the top of the screen to switch pages.

Pinch to zoom in or out of pages. Tap and hold an item on a page to open a contextual menu.

## Setting up the Email application

The Email application enables you to access email from most popular providers. Most accounts can be set up in two steps. Tap APPS and then tap Email to start setting up your email access. Enter your email address and password tap Manual setup to enter the parameters manually or simply tap Next to finish the setup process. The combined inbox feature of your tablet allows you to view emails from multiple accounts in a single inbox.

## Google services

### Note

Applications may not be available in all countries and regions. You must activate a Google Account before using Google services. The first time you access Google services, you must read and accept the Terms of Service.

The contents and design of Google Play vary by region. For example, in some regions, you can also browse for and purchase movies, books, magazines, or music. Updates may add new categories or change how to navigate Google Play at any time.

## Setting up your Gmail

1. Make sure your tablet is connected to the internet.
2. Tap APPS and then Gmail .

If you did not enter a Gmail account address and password when you first started your tablet, follow the instructions.

## Composing an email

1. Make sure your tablet is connected to the internet.
2. Tap APPS and then Gmail .
3. Tap .
4. Enter the recipient's email address, the subject and message.
5. When you are finished composing your message, tap .

## Voice Search

### Note

Voice Search is available only in selected regions.

With voice actions, you can send emails, find directions to locations, search the internet and even send a note to yourself using your voice. In Chrome, tap the microphone icon in the address bar for voice searches. When the Speak now prompt displays, state your command or query then press the red microphone button. Your command displays in the search box. Tap Go on the keyboard to complete the command or query.

## Google Play

Google Play is your entertainment unbound. It brings together all of the entertainment you love and helps you explore it in new ways, anytime, anywhere.

For the best user experience, you are advised to not download apps that use 3D graphics. Once you have selected an application, tap the Install button to download and install the application. You will be told which services (contact information, wireless access, GPS, etc.) the application requires access in order to function correctly. If none of these services seem unusual, tap Accept & download to proceed with the installation. You may keep track of the download progress from both the app's page and the device's notification area.

### Important

Some applications may require payment before you can download them. You will need to have a Google Wallet account in order to pay for these applications.

## Using downloaded applications

Once you've downloaded and installed an application, you may find it in the APPS or WIDGETS menus.

Certain applications provide both an app and widget, or only provide a widget (with no application icon). See [Personalizing the Home screen on page 15](#).

## Uninstalling downloaded applications

Once you've downloaded and installed an application, you may uninstall the application from APPS > Settings > Apps, then select the app you wish to uninstall and tap Uninstall. Deleting an app icon from the Home screen only deletes the shortcut.

### Note

Pre-installed apps cannot be uninstalled.

## Troubleshooting

If you detect an unusual condition on your device, you can try to solve the problem in the description of the table.

<b>PROBLEM</b>	<b>REASON</b>	<b>SOLUTION</b>
Tablet no LAN/Wifi connect.	Incoming signal is too low	May the signal is weak or bad. If you are on the ground, signal reception may be reduced. Change another place and try again.
Skip touchscreen	May your hands wet, tablet software or touch screen can not find touch operation.	While touching the touch screen, make sure it is dry. If the touch screen is scratched or If it is damaged, contact us.
Intermittent lockups or Tablet stops responding	May too many applications under operating	Press and hold the power button for 5 seconds. If the tablet does not turn off then press the Reset button located near SD card slot.
Tablet beeps and the battery icon blinks Blinking	Your battery is weak	To continue using the device, recharge.
Tablet camera head error message Giving	There is not enough memory or the battery is weak.	Charge the battery. Transferring files to a PC, or open up some space by deleting some files in memory.
My Tablet does not turn on out of the box	Low power	Plug the AC Adapter into the wall and connect to the Tablet. The tablet should now power on. Vucetimes recommends to charge the device for 8 hours before first use. For a device that is completely discharged, leave it plugged in and turned off for at least 12 hours.
Unable to make a connection to your Computer	Compatible with USB jack or PC latest version drivers not loaded	If you are using the USB cable with your device make sure it is compliant. Your PC has the right drivers installed and be sure to update it.

### Important

This will erase all your personal information, any contacts stored on your tablet and any programs you installed.

### Declaration of conformity EU:

Market Maker Brand Licensing, hereby declares that this equipment, conforms to the essential requirements and other relevant provisions of Directive 2014/53/UE.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: ( 1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

15.21 Information to the user.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. 15.105 Information for the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connecting the equipment to a socket on a circuit different from that to which the receiver is connected.
- Contact with the provider or a radio/TV technician for help.

Specific absorption rate (SAR):

This Tablet meets the government's requirements for exposure to radio waves. The guidelines are based on standards developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a margin of safety designed to ensure the safety of all people regardless of their age or health.

The FCC Statement of Exposure to RF and the SAR limit for the United States (FCC) is 1.6 W/kg average for each gram of tissue. This device was tested for typical operations of use on the body, with the back of the Tablet at 0mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a distance of 0mm between the user's body and the back of the Tablet . The use of belt clips, covers and similar accessories must not contain metallic components in their assembly. The use of accessories that do not meet these requirements may not meet FCC RF exposure requirements and should be avoided.

Functioning in the body

This device was tested for typical operations of use in the body. To comply with RF exposure requirements, a minimum separation distance of 0mm must be maintained between the user's body and the Tablet, including the antenna. Third-party accessories such as belt clips, covers and similar accessories used with this device should not contain metallic components, accessories that do not meet these RF exposure requirements and should be avoided from use on the body. Use only the supplied antenna or an approved antenna.
