GETTING STARTED WITH YOUR TABLET

Features and functions

Your new tablet offers leading, easy-to-access multimedia and entertainment features. You can:

- Connect to the Internet via Wi-Fi.
- Access your email while on the move.
- Keep in touch with your friends via your People and social networking APPs.

Unpacking your tablet

Your new tablet comes packed in a protective box. Carefully unpack the box and remove the contents. If any of the following items are missing or damaged, contact your dealer immediately:

- Acer Iconia tablet
- Product setup and safety information
- USB cable
- AC adapter
- Warranty card

Note

Before using your tablet for the first time, you need to charge it for at least four hours. After that you can recharge the battery as needed.

Turning on for the first time

To turn on your tablet, press and hold the power button until you see the Acer logo. Wait a moment for your tablet to boot up. You will then be asked some questions before you can use your tablet.

To start, tap to select your language then tap **Start**. Follow the rest of the instructions as they are displayed.

If the tablet's screen turns off, it has entered sleep mode. Briefly press the power button to wake it up. For more information [see **Waking your tablet on page 19.**](#)

Sign in to or create a Google account

If you have Internet access, your tablet allows you to synchronize information with a Google account.

During the start-up process, you may create or sign in to an account, which will be used to synchronize your contact list, email, calendar and other information. If you do not yet have Internet access, or do not want to use this feature, then tap **Skip**.

Important

You must sign in to a Google Account to use Gmail, Hangouts, Google Calendar, and other Google Apps; to download APPs from Google Play; to back up your settings to Google servers; and to take advantage of other Google services on your tablet.

If you want to restore existing settings from another device with Android 2.0 (or later) installed, you must sign in to your Google account during setup. If you wait until after setup is complete, your settings will not be restored.

If you have multiple Google accounts, such as separate accounts for personal and business contacts, you can access and synchronize them from the Accounts settings section. **See Multiple Google accounts on page 41**

CHARGING YOUR TABLET

Assembling the power adapter

Your tablet is bundled with one of two types of USB power adapters: a fixed-prong type or a removable-prong type. Both types are described in this manual.

Fixed-prong type

The prongs and power adapter body form a complete piece, no assembly required. Simply slide the large end of the USB cable into the power adapter body (it will fit in only one direction). You cannot remove or switch the prongs with this type of adapter.

Removable-prong type

Align arrows on the power adapter head and body. Insert the head onto the power adapter body and turn the head towards "CLOSE" printed on the head until it clicks into place. Simply slide the large end of the USB cable into the power adapter body (it will fit in only one direction).

Connecting power

Connect the power connector to your tablet and plug the AC adapter into any AC outlet.

Warning

Only use an Acer-approved adapter to charge your device.

Note

It is normal for the tablet surface to become warm during charging or long periods of use.

CONNECTING DEVICES TO YOUR TABLET

Connecting to AC power

See [Charging your tablet](#) on page 7

Inserting a microSD card

You may install a microSD card to expand your device's storage space. Ensure that the microSD card is inserted all the way into the card slot.

Note

Your tablet only supports microSD cards that use the FAT or FAT32 file system.

Check card capacity in the **External SD card** section of **APPs > Settings > Storage**.

Transferring files between your tablet and a PC

Your tablet and any connected storage devices can be accessed from a PC with a USB connection.

Connecting to a PC as a USB storage device

If you wish to transfer information between your device and your computer (either the microSD card in your device or the device's

internal memory), you can connect your device to a PC using the supplied USB cable.

1. Plug the USB sync cable into the micro USB connector on your device.
2. Plug the USB client connector into an available USB port on your computer.

3. Swipe down the top-left notification area and tap **Connected as a media device** to choose whether to connect as a *Media device (MTP)* (the default option) or *Camera (PTP)*.

Your device will now be available as a drive in your computer's file explorer.

Connecting a Bluetooth device

Only A2DP stereo headsets (playback only, no microphone) are supported. Please check for updates to the tablet's software which may add support for additional Bluetooth devices.

For Bluetooth settings, tap **APPS > Settings**, then under **WIRELESS & NETWORKS** tap Bluetooth.

Turn Bluetooth on and tap **Search for devices** to scan for nearby devices.
