Attn: OET Dept.

Ref: FCC Class II Permissive change for FCC ID: HLZGOBI2000A  
(Original Grant date: January 7, 2009)  
Applicant: Acer Incorporated

Dear Sir/Madam:

Acer Incorporated is submitting an application for Class II Permissive Change to the Gobi2000 PCI Express Mini Card, model Gobi2000 (FCC ID: HLZGOBI2000A).

There is no hardware or electrical modification made to the applying modular transmitter itself.

The change filed under this application is:  
Adding collocation with WLAN modules FCC ID: PD9533ANH, BT module FCC ID: QDS-BRCM1018

- A RF worst case RF exposure evaluation is included in the filing to address collocated SAR considerations. The RF exposure uses conservative values representative of any future collocated transmitters that could be installed with HLZGOBI2000A in a mobile host.

Please contact me if you have any questions or need further information regarding this application.

Sincerely,

-----  
Easy Lai  
Acer Incorporated
