RE: FCC ID: HLZMS2154RM8
Attention: Daphne Liu

I have a few comments on this Application.

1. Please note that no FCC ID label information was provided. Please provide a sample FCC ID label and a drawing or photo of where the label will be on the product.
2. Please note that there appears to be more than ample room to place the 2-condition statement on the device. Please show the sample 2-condition statement and where it will be on the device.
3. FYI – no action needed. Please note that the Z-axis plot in the SAR report show follow the conventions of IEEE1528. This convention is a 2-axis plot of measured and calculated values. While the pictorial z-axis sample in the report may be adequate, the 2axis line graph provides actual data points that are representative to that expected in 1528.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
