

The image shows the bottom of a black laptop. A ruler is placed along the right edge for scale. Two red circles are drawn on the bottom-left area. One circle is around a large, multi-line label with various symbols and text. The other circle is around a smaller, rectangular white label. Red lines connect these circles to text labels. The text 'host label' is positioned above the larger circle, and 'Module label' is positioned below the smaller circle.

host label

Module label
