Pittsburgh, PA 15251-5315

Dear Sir:

SUBJECT: FCC Certification Application, FCC ID: HN2-F4-06476-LP

Please review the following application for a change in identification. A 731 form authorizing credit card payment in the amount of \$ 985.00 and an electronic application for the change has been submitted by Intermec Technologies Corporation.

Intermec Technologies Corporation has sold Amtech to Transcore and now has to change the FCC ID: F1H-F4-06476-LP to FCC ID: HN2-F4-06476-LP for this product. The product line remains property of Intermec Technologies; we only request the change to place the FCC ID under our control.

There are no changes to the product, only the change in FCC ID. The data currently on file with the FCC is still representative of this products regulatory characteristics. Accompanying this letter are photographs of the label placement, as well as label diagrams for your records.

Please contact me at (319) 846-2415 or e-mail frydave@norand.com should you have any question regarding this change in FCC ID.

Sincerely,

Dave Fry,
Regulatory Engineer
Intermec Technologies Corporation
