RE: Part Lists/ Tune Up Info
FCC ID No: HN2-F4-915-LP

Dear Sirs:

Pursuant to section 2.983(d)(6), the list of active devices and description of the function of each semiconductor and other active circuit elements are included as a portion of the operational description and are included under separate cover in the exhibit titled "Operational Description".

Pursuant to section 2.983(d)(9), the RFID printer module has no user adjustable controls. The device has no provisions for any type of alignment and therefore requires no tuning. The power level is set at the factory at final test is not adjustable.

Respectfully,

Wesley M. Mays
Engineering Manager
Amtech Systems Division
Intermec Technologies Corporation
