

The Intermec logo is written vertically in a bold, blue, sans-serif font. To its right is a large, faint, light-blue graphic consisting of several overlapping circles and lines, resembling a network or orbital diagram.

Intermec

January 24, 2005

The FCC logo is a dark blue square containing a white graphic of three overlapping circles, similar to the Intermec logo's background graphic.

To Whom It May Concern:

The WML-C20AH radio is identical to the WML-C30XX radio. The manufacturer, Mitsumi Electric Company, generated the interim part number (WML-C20AH) to cover parts manufactured as demo units before the certifications on the WML-C30XX were completed. All approvals were sought using the model name WML-C30XX. However, since the schematic was generated during the interim period and since the layout has not changed, the model name on the document was not updated.

Please contact me by telephone at (425) 356-1765 or by e-mail (katie.molina@intermec.com) if there are questions or additional information needed concerning this attestation.

Sincerely,

Katie Molina
Compliance Engineer
