

NORTHWEST EMC, INC.

22975 NW Evergreen Parkway, Suite 400
Hillsboro, OR 97124

June 1, 2005

Dear Application Examiner:

On behalf of Intermec Technologies Corporation, Northwest EMC, Inc is submitting this application for the Class II Permissive Change of Intermec's PB42 Printer, FCC ID: HN2-PB42. It is a Bluetooth enabled printer. No changes have been made to the radio or its antenna. Approval is sought for the co-location exposure condition described below.

Intermec will install their BTM311 Bluetooth module (FCC ID: HN2-BTM311) and their 802UIAG 802.11 a/b/g module (FCC ID: EHA802UIAG) in their CK60 handheld terminal. An application for certification has been submitted to the FCC for the 802UIAG. It is seeking limited modular approval. The CK60 will be located within 20 cm of the PB42 printer. The PB42 printer contains Mitsumi's Bluetooth radio module.

The test reports and exhibits demonstrate compliance with FCC rules 47 CFR 15.247 and 15E while the BTM311 is co-located as described above.

Your efforts in reviewing this application are greatly appreciated.

Best regards,

Northwest EMC, Inc.
