RE: Part Lists / Tune Up Info  
FCC ID No: HN21555-900

Dear Sirs:

Pursuant to section 2.983 (d)(6), the list of active devices and description of the function of each semiconductor and other active circuit elements are included as a portion of the operational description, and are included under a separate cover in the exhibit titled "Operational Description".

Pursuant to section 2.983(d)(9), the Hand Held Reader has no user adjustable controls. The device has no provisions for any type of alignment, therefore no tuning is required. The power level is set at the factory test and is not adjustable.

Respectfully,

Jerry Johnson  
Project Manager  
Amtech Systems Division  
Intermec Technologies Corporation
