Dear Sir or Madam:

SUBJECT: FCC Certification Application, FCC ID: HN22011B-2

Please review the documentation for a Class 2 permissive change approval submitted to you by Intermec Technologies Corporation. This application is for the 2011B radio module, which operates in the 2400 to 2483.5 MHz band as a DSSS transmitter under Section 15.247. It is intended for use in handheld terminals and other portable applications.

The documentation provided to your agency contains all the important information concerning labeling, antenna information and RF Exposure statements. Information regarding the characteristics of the transmitter is detailed in the test report.

The radio is provided to Intermec Technologies Corporation by Intel Corporation. Intel Corporation has provided the Operational Description, Schematics and Block Diagram for this certification application.

Thank you in advance for your consideration. If you have any questions or if you need any additional information, please let me know.

Sincerely,

Katie Molina
Compliance Engineer
