Overview

This application is for a class II permissive change to FCC ID: HN2CK31MIG2, model 802MIG2, to allow a new RF exposure condition. The 802MIG2 radio is contained in the Itermec Model CK31 handheld printer and will be co-located with a Bluetooth radio module, model BTS080, which has a full modular approval under FCC ID: EHABTS080. SAR evaluation has been performed on the co-located configuration in the CK31 printer as described in the FCC Cover letter.

Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
