Re: Attestation for U.S. channel configuration

**Intermec  
Technologies  
Corporation**

**Safety & Compliance**  
6001 36<sup>th</sup> Avenue West  
Everett, Washington 98203  
United States  
**tel** 425 356 1765  
**fax** 425 348 2633

To Whom It May Concern:

The channel selections for the radio are based on country codes. Operating modes for channel selection and data rate are set by Intermec Technologies personal, or service providers acting on our behalf, at the time of final assembly or installation. As such, units configured for U.S. markets can only operate on Channels 1-11. These installation settings do not effect the radio operation as reported within the associated report.

Please contact me by telephone at (425) 356-1765 or by e-mail ([katie.molina@intermec.com](mailto:katie.molina@intermec.com)) if there are questions or additional information needed concerning this attestation.

Sincerely,

Katie Molina  
Compliance Engineer
