

The antenna is a Linx part # ANT-916-PW-QW (Linx says it is Part 15 compliant) and is permanently mounted to the case thru a 1/4" hole in the case. The antenna is fed thru the hole using RG-174 Coax cable and is terminated in an right-angle crimp SMA connector which is a Johnson Part # 142-0403-101 which is screwed on to a mating connector on the circuit board.
