Hi Mike,

Here's the answers for TCB questions:

Question #1: Please see attached file.

Question #2: Please see attached files for internal photos.

Question #3: Please see revised user manual (PAGE 8) in attached file.

Thanks!

regards,

Notice_content

Question #1: Please provide MPE data for base set.

Question #2: Please provide additional internal photos to show the component and solder sides of PCB by removing the shielding plate. Please do so for base set and hand set.

Question #3: User Manual does not contain RF Exposure warning statement for base set. The following statement is suggested for the reference:

"IMPORTANT NOTE: To comply with FCC RF exposure compliance requirements, use only the antenna that is installed on the telephone. Avoid direct contact to the antenna while talking. Base set should be positioned to provide a separation distance of at least 20 cm away from all persons."

Please provide revised user manual to comply this requirement.

Best Regards

Mike Kuo / TCB Certifier

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 60 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
