

Operational Description of the equipment

This presenter is a combination remote control mouse and laser pointer. With this presenter you can control cursor movement anywhere within 50 feet (15 m) of its receiver and project a red laser pointer beam.

To connect the receiver to your computer, plug the standard USB end of the receiver into an available USB port on your computer. Alternatively, you can use the supplied USB extension cable to connect the receiver to your computer for additional length.

Your computer's operating system identifies the receiver as a "USB Human Interface Device" and begins installing the default driver. Follow any on-screen procedures to complete the default driver installation.
