Overview

This application is for a class II permissive change to FCC ID: HS9RTH9580WF01, because a shield was removed from the device.

The model RTH9580WF01 is a WIFI enabled thermostat operating in the 2.4GHz ISM band utilizing the popular 802.11b/g/n standard data rates and modulations. This thermostat is designed to control various HVAC equipment. While this thermostat is intended to be used in mostly residential applications, it can also be used in various light-commercial applications as well.

Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
