Re: FCC ID: HSW-2410NF

To Whom It May Concern:

The following application is submitted on behalf of our client, Murata Electronics North America, for evaluation of their model WIT2410NF for a class II permissive change certification under FCC Part 15.247.

The WIT2410NF is a 2.4 GHz frequency hopping transceiver. The purpose of this class II permissive change is due to a modification to the transmitter that will allow for adjustment of the RF output power during production.

The WIT2410NF was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive style with a large initial 'R'.
