Re: FCC ID: HSW-DNT90

To Whom It May Concern:

The following application is submitted on behalf of our client, RFM/Cirronet, for evaluation of their models DNT90C and DNT90P for single modular approval certification under FCC Part 15.247.

The DNT90C and DNT90P are frequency hopping spread spectrum (FHSS) transceiver modules operating in the 902-928MHz frequency band. The DNT90C and DNT90P are electrically identical and differ only in their mounting option. The DNT90C is a castellated version and the DNT90P is a pin version for socket mounting.

The DNT90 was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive style with a large, prominent 'R'.
