Re: FCC ID: HSW-WSN802G

To Whom It May Concern:

The following application is submitted on behalf of our client RFM / Cirronet, Inc., for evaluation of their models WSN802GC and WSN802GP for certification under FCC Part 15.247 for a Class II Permissive Change.

The Class II Permissive Change is being filed to add a new antenna type to the modular approved device.

The device was tested for radiated emissions to the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads "R. Sam Wismer". The signature is written in a cursive style with a large initial 'R'.
