Re: FCC ID: HSW-XDM2510

To Whom It May Concern:

The following application is submitted on behalf of our client, RFM/Cirronet, for evaluation of their models XDM2510HP and XDM2510HC for single modular approval certification under FCC Part 15.247.

The XDM2510HP and XDM2510HC are stand-alone modules consisting of a single printed circuit board which are designed to be integrated into specific host devices. The XDM2510HP and XDM2510HC are electrically identical and differ only in their mounting option. The XDM2510HC is a castellated version for reflow soldering and the XDM2510HP is a pin version for socket mounting.

The XDM2510HP and XDM2510HC were tested in full to the requirements of the aforementioned rules and were found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads "R. Sam Wismer". The signature is written in a cursive style with a large, prominent 'R'.
