Date: July 22, 2005

Gentlemen:

Cirronet respectfully requests confidentiality of certain materials provided with the submission of the ZN241 under FCC ID: HSW-ZN241 in accordance with FCC Regulations 0.459. The confidentiality request applies to the (1) schematic diagrams, (2) detailed block diagrams, (3) detailed operational descriptions, (4) parts lists, and (5) tune up procedures. That may be contained in this filing. The ZN241 has been developed at considerable effort and expense by Cirronet. These items are considered as Trade Secrets and therefore public access to the proprietary material could possible result in duplication of equipment that could severely damage the company's business advantage.

I appreciate your assistance in this matter.

Sincerely,

Al Patrick                      July 22, 2005
