(DTK-2420, DTK-2421, DTH-2420, DTH-2421)

PRECAUTIONS

To ensure the safe operation of the product, be sure to follow all instructions, cautions, and warnings found within this guide. Failure to do so could cause damage to the product, damage to your computer, or loss of data. Failure to do so could also void your warranty, in which case Wacom shall have no responsibility to repair or replace the product.

WARNING

The product is solely for normal office environments but may be used also as center consoles in climate controlled environments. The product was tested by Wacom for the usage in a normal office environment only and there was no particular inspection with regards to its compatibility in medical and military application areas.

In addition, the interactive product is neither waterproofed nor explosion resistant.

It serves and can be used solely as a passive display and input device.

In all applications that are not designated for its sole usage, no information on the functionality and possible malfunctions of the interactive product can be supplied due to inadequate execution of tests. The adoption of the interactive product in other application areas than normal office environments is at the user's risk.

Only use a power adapter specified for use with the product. If a different type of power adapter is used, the product will not work properly or may be damaged. Using a different type of power adapter also has the potential to result in fire. Use of a different power adapter will void your warranty.

Regularly remove dust build-up from the power plug. The addition of moisture, etc., to accumulated dust may create a fire hazard.

Do not damage, forcibly bend, or bundle the power cord. Do not place heavy objects on the cord or expose it to excessive heat. Ignoring this warning may result in fire, electrical shock, or product failure.

Do not connect or disconnect the power adapter with wet hands. Ignoring this warning may result in electrical shock or product malfunction.

Do not insert foreign material into the USB port, video connector ports, or any other opening of the product. If a metal object or foreign material is inserted into a port or other opening of the product, it may cause product malfunction, fire, or electrical shock.

Do not open or disassemble the product. There is a risk of electrical shock when the casing is open. This will also void your warranty and Wacom shall have no responsibility to repair or replace the product.

When moving the product, ensure all cables are fully disconnected from the power outlet, computer, and other areas. Tripping over loose cables can cause physical damage or personal injury.

Do not place the product on any unsteady or wet surface. Do not place it on slanted or unstable surfaces or areas where vibration is present. Physical damage or personal injury may result if the product falls from an unsuitable surface.

If you need to adjust the position of the product while using it, be careful to move it slowly and gently.

Do not sit on, or hang from, the table or other surface where the product is

placed. The product may fall and cause physical damage or personal injury. Take extra care where children are present.

If the LCD screen has been damaged, DO NOT touch any liquid that may be leaking from it; this liquid is an irritant. In case of contact with skin, eyes, or mouth, rinse immediately with running water for at least 15 minutes. If contact is made with the eyes or mouth, consult a physician.

Choking hazard. Prevent children from swallowing the pen tip or side switch. The pen tip or side switch may accidentally be pulled out if children are biting on them. Prevent children from playing with any packing materials or wrapping, as a choking or suffocation hazard may exist.

Disconnect the product from the AC power source and refrain from using it during thunder or electrical storms. Using the product during thunder or electrical storms may cause product malfunction, fire, or electrical shock.

Do not disassemble the pen. This may cause the device to malfunction. In this case, Wacom shall have no responsibility to repair or replace the pen.

For best results, use the ExpressKey Remote at least 1.6 inches (40 mm) away from the pen.

Do not strike hard objects with the pen, such as repeatedly tapping the pen against a desk surface. Doing so may cause damage to the pen.

Do not apply excessive pressure or stress to the movable portion. This may cause premature failure or malfunction.

Only use a replacement pen tip (nib) specified for the pen by Wacom.

This product has parts made of metal. If you show symptoms of metallic allergy during use, stop using the product, and consult a doctor immediately.

Do not scratch the display screen. Avoid placing sharp objects on the display screen surface.

Avoid intensive shock or vibration to the product, the product stand, or the pen. Hitting or dropping the product may damage the display screen or other components.

Do not put heavy objects on the product or push against it with a strong force; this may damage the display screen or break the product stand mechanism.

Do not store the product on a surface that would excessively bend or crimp the cable.

If your product has a coated surface, a worn pen nib that is sharp or angular may cause damage. Replace the pen tip if necessary.

Do not use any organic solvent (e.g. alcohol) or even mild detergent to clean the display screen. Use of these cleaners can damage the display screen. Damage of this kind is not covered by the manufacturer's warranty.

- Before cleaning, always disconnect the product from the AC power source.
- To clean the display screen, use an anti-static cloth or a slightly damp cloth. When cleaning, apply only a light amount of pressure to the display screen and do not make the surface wet.
- To clean the product casing, the product stand, or the pen, use a slightly dampened (with water) soft cloth.

Always disconnect the product from the AC power source if the product appears to be malfunctioning or is damaged.

This product has magnets installed inside it. Do not allow objects that could affect

the magnetism of these magnets (such as heart pacemakers, magnetic stripe cards, wristwatches, etc.) to come into close proximity with the product, or damage or data loss may result.

Touching the same part of your body to the product (LCD panels and other areas) for extended periods of time may cause low temperature burns. Avoid touching the product with the same part of your body for extended periods of time.

Do not place metallic objects on the product when using the product. Doing so may cause malfunction or damage to the product.

Placing other tablets or other devices near the product may affect the product's operation and cause malfunctions. If this happens, place the interfering devices to the side or further away from the product.

Move the product periodically to another place on your work surface to avoid permanently discoloring or altering the appearance of the surface.

When you pick up the product, hold the product with both hands.

Be sure to dispose of this product properly and to manage the disposal in accordance with your local ordinances and laws.

CAUTION

Do not use or store the product in the following conditions:

- Where temperature changes are severe or exceed specifications (e.g., outdoors or inside a vehicle).
- Where the product and the pen are exposed to direct sunlight, to heat from an appliance, or to water or any other kind of liquid.

Do not use the product in a dusty environment; this may damage it.

The product is for use with the bundled cables. Using inappropriate cables may damage the product.

Do not block the ventilation holes; this may overheat and damage the unit.

Keep the AC adaptor and the product in a well-ventilated place. If used in a poorly ventilated place, it may overheat and cause it to malfunction, decreasing the product life.

Protect the health of your eyes when using the product:

- Only use it in a well-lit room and view the display from a suitable distance.
- Take regular breaks when using the product for extended periods of time.

Take care of the following points in regards to the LCD display.

Do not push down forcibly with the pen on the LCD display. Pushing down forcibly on the display may cause ripple-like, striped patterns to temporarily appear on the display. The ripples disappear when you stop pushing down with the pen.

The following conditions are characteristics of LCD displays and do not indicate damage or malfunction to the product.

- Depending on the displayed contents, brightness may appear uneven.
- Depending on the displayed contents, a small amount of lit and unlit red or blue dots may be visible.

You are required to keep the invoice or any other documents which prove the amount you actually paid for the Product. Notwithstanding the above, nothing in this Agreement limits Wacom's liability to You to the extent arising out of any willful or grossly negligent misconduct on the part of Wacom.

5.3 Severability.

If any provision of this Agreement is held to be illegal, invalid or otherwise unenforceable, such provision will be severed and deleted from this Agreement, while the remainder of this Agreement will continue in full force and effect.

LIMITED WARRANTY

(EUROPE, AFRICA AND MIDDLE EAST)

WACOM warrants to you, as the initial purchaser, (hereinafter referred to as "you" or "the customer") that the product hardware will remain free from defects in materials and workmanship under normal use and service for a warranty period of two (2) years, and in case of Cintiq products for a warranty period of two (2) years, commencing from the purchase date and provided that the product was unused at the time of purchase. Defects in wear parts (e.g. pen nibs and batteries) resulting from normal wear and tear are exempt from the warranty. Furthermore, WACOM warrants that the data carriers delivered with the product are free from defects in materials and workmanship under normal use for a period of six (6) months from the date of purchase. If during the applicable warranty period the product, excluding any software, is discovered to be defective, it should be returned immediately to the place of purchase in its original packaging together with your name, address, and telephone number, a description of the problem, and a copy of the original receipt. The customer shall be liable for any possible damage or loss of the product during transit to the place of purchase for this purpose.

WACOM's sole obligation and entire liability under this warranty shall be, at WACOM's option, either the repair or the replacement of the product or parts thereof that prove defective and that were returned within the applicable warranty period. WACOM does not warrant to repair or replace the product if: (a) the damage to the product results from accident, misuse, improper use, negligence or unauthorized alteration or repair; (b) the product was not handled or stored according to the instructions provided by WACOM; (c) the damage resulted from normal wear and tear of product parts; or d) the serial number affixed by WACOM has been removed or rendered unintelligible. Any descriptions, drawings, specifications, samples, models, notifications or similar material provided in connection with the purchase of the product cannot be taken as an explicit guarantee that the product corresponds to or fulfils your requirements. The warranty guaranteed by law remains unaffected. You can claim defects of the product in accordance with the relevant legal provisions.

WACOM shall only be liable for itself and its vicarious agents if a material contractual obligation has been culpably breached in a manner jeopardising the purpose of the contract or the damage is due to intentional acts or omissions or gross negligence. A material contractual obligation is an obligation which is essential to the proper performance of the contract on which the other party will typically rely. In case that the culpable infringement of such a material contractual obligation is not due to intention or gross negligence, the liability of a party shall be limited to such damages being typical for the contract and which were reasonably foreseeable at the time of the closure of the contract. Where these Terms and Conditions preclude or limit liability, this also applies to the personal liability of the executive officers of the party concerned, its employees, agents and subcontractors. The provisions of the product liability law (Produkthaftungsgesetz) remain unaffected. If, when a claim made under this warranty is checked, it emerges that it is outside the permitted time period or is not covered by the warranty or that the product is not defective, the customer will reimburse WACOM for associated costs. This limited warranty shall apply if the registered office of the vendor is situated in the EU or Iceland, Norway, Jersey, Switzerland, Russia, the Ukraine, Croatia, Serbia, Tunisia, Turkey, Syria, Lebanon, Jordan, Israel, Egypt, the United Arab Emirates, Iran or South Africa. This warranty is subject to German law. However, the applicability of the United Nations Convention on Contracts for the International Sale of Goods is explicitly excluded. The city of Düsseldorf, Germany, is the sole place of jurisdiction for all claims arising from this contractual relationship and all disputes between the parties resulting from the formation, handling or termination of the contractual relationship, provided that the customer is a trader, a legal entity or fund under public law. The jurisdiction agreement shall also apply for customers who do not have a general place of jurisdiction in Germany. The jurisdiction agreement shall not apply if, due to legal provisions, a different sole place of jurisdiction must be established for the case. Furthermore, WACOM is authorised to file a lawsuit against the headquarters of the customer. Should one of the provisions of this limited warranty be or become void, the validity of the other provisions shall not be affected, in full or in part. Should a provision be invalid, the legally permissible regulation most closely resembling the invalid regulation shall apply in its place.
