Subject: Class II Permissive Change Application for Class B Computing Device Peripheral
FCC ID: HWFA4CIS-USB / Image Scanner, Model 1200 CU PLUS

Gentlemen:

Enclosed, please find Mustek Systems Inc.'s application for equipment authorization, dated January 29, 2000. This device was originally granted on February 15, 1999 in compliance with Part 15, Subpart B of the FCC Rules.

The subject device was past reported as an USB Color Flatbed Image Scanner with single pass scanning and optical resolutions up to 600dpi (H) and 1200 dpi (V). Also, this device was reported as marketed with such features as: (1) ASIC image data processor, type MA1017 with 24 MHz clock frequency; (2) permanently attached 0.6m or 1.2m shielded USB interface cable with one bonded ferrite core; and (3) provided with Direct Plug-In AC Adaptor with DC cable with one bonded ferrite core.

This Class II Change is to report deletion of AC Adapter and use of the USB port to provide power to the scanner and added ferrite core on internal motor connection cable. This EUT was system tested in accordance with ANSI C63.4-1992 to show compliance with CISPR Pub 22 Class B limits.

Should you have any questions or comments, please contact the undersigned. Thank you for your attention and cooperation in this matter.

Sincerely yours,

Richard Mullen
