Re: Request for Dismissal of FCC ID: HWN-TX20K

To whom it may concern:

This letter is to formally request dismissal of the application with FCC ID: HWN-TX20K. The reason for this request is that this device is not currently in production and there are currently no plans for future production. Also, this device has never been marketed or sold in the U.S. or anywhere in the world.

To be clear: Product development for the TX20K was halted before completion due to technical difficulties. Product design was never completed.

If you have any further questions or need additional information, please feel free to give me a call at +1-231-334-4383.

Sincerely,

Stephen Tarsa  
CEO
