Dear Judy,

Apparently there is a glitch in the system and although the copy I see shows the reference number, the contact person's copy does not have the reference number. The reference number for that e-mail I sent is 679 or 680. Please upload your e-mail. It will suffice.

Katie Hawkins

Katie,

I received the attached email from you 11/7; however, there is no reference

number on it so I can't reply through the TCB website.

This is a remote car door key and is too small for the statement.

Please

reference FCC ID: NI412BBB user manual for the compliance statement info.

If this isn't sufficient, please let me know.

Judy
