RE: FCC ID: HYQ12BBT  
Attention: Ms. Hiroka Umeyama

I have a few comments on this Application.

- 1 The plots in the report are not clear. Please provide clear plots.
- 2 The setup photo is not clear. Please provide a photo that clearly identifies the EUT.
- 3 Intentional radiators are to be tested in accordance with ANSI C63.4. While the report states ANSI C63.4 was used, there is no indication in the data that the device was tested in all three orthogonal planes as required by par 13.1.4.1. Please provide evidence that all three orthogonal planes were investigated.
