Northbrook, IL 60062 USA

FCC ID: HYQ14ADR
Product: Electronic Key
Model: 14ADR

We, **DENSO CORPORATION**, would like to dismiss the IC certificate for above-mentioned model.

The reason is that the information contained in “Appendix 3 The tested pulse train” of Test Report is confidential, and releasing the information on the web would be a security problem. Therefore, we will extract the applicable part from the test report and insert it to the “theory of operation”.

Thus, we request the re-application after replacing the documents for this application.

Thank you for your attention on this matter.

Sincerely,

Kazuo Sakakibara
Senior Manager
Engineering Administration Department
