

FCC Application Letter

April 30, 2021

Federal Communication Commission
Equipment Authorization Division
Application Processing Branch
7435 Oakland Mills Road
Columbia, Maryland 21046

FCC ID : HYQDNMWR009
Applicant : DENSO CORPORATION

To Whom It May Concern:

This is to request a Class II permissive change for FCC ID: HYQDNMWR009, originally granted on 10/16/2016 and all its permissive changes.

We changed the following points from the original model.

- Adding Wafer Manufacturer of BBIC
- Adding Internal Control IC Manufacturer of OSC

This change does not affect the maximum power.

Please refer to attached "Explanation of Change" for details of these modifications.

Original and previous Class 2 Permissive change filing have been granted under 15.253 with equipment class FDS.

However, this application shall be proceeded under Part 95M with equipment class VRD due to the rule change (FCC 17-94).

We will make a new application based on the "KDB 178919 D02 v01 FAQ 7".

Thank you for your attention to this matter.

Sincerely,

Keijiro Kumagai
Manager
Engineering Development Promotion Div.
DENSO CORPORATION
