This is to request a Class II permissive change for FCC ID: HYQDNNS087, originally granted on 04/26/2016. We changed the following points from the original model.

- Output power of Bluetooth (BR/EDR/LE)

Since output power is increased from original granted condition, this Class II permissive change is allowed from FCC by KDB Inquiry.

Meanwhile we submit the following documents related to this change. There is no change before and after change except for these documents.
