

FCC Request for Rule Changes based on 17-93

February 12, 2020

Federal Communication Commission
Equipment Authorization Division
Application Processing Branch
7435 Oakland Mills Road
Columbia, Maryland 21046

FCC ID : HYQDNNS091
Applicant : DENSO CORPORATION

To Whom It May Concern:

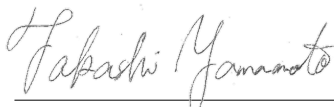

This request is to add Equipment Code "CXX" for FCC ID: HYQDNNS091, originally granted on 07/26/2018 and all its permissive changes. We change the radio receiver part had confirmed conformity of Part 15 Subpart B to "Certification" procedure from "Verification" procedure.

This Cockpit Control Unit (CCU) with 2.4 GHz WLAN and Bluetooth was granted as Part 15 Subpart C for "DTS" and "DSS", we add "CXX -Communications Rcvr for use w/ licensed Tx and CBs" as Equipment Code to this product.

This time, we performed the re-testing of Part 15 Subpart B because we deleted the HD radio function etc. from the based model. Please refer to the test report submitted with this application. Also, for Part 15 Subpart C performed the testing and confirmed that it is Class 1 permissive change.

Thank you for your attention to this matter.

Sincerely,

Takashi Yamamoto
Manager
