

Our product is one of vehicle parts incorporated into the vehicle as original equipment. Therefore, we will not supply the user manual. However, we will ask the vehicle manufacturer to include following statements in the user manual of the vehicle in accordance with FCC requirement. In addition, we will ask the vehicle manufacturer to include the contact information for maintenance in the user manual of the vehicle.

1. Requirement for User manual of the vehicle

1.1. FCC Requirement

In accordance with 15.21 of FCC rule, following statement will be included in the user manual of the vehicle.

FCC WARNING

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

In accordance with requirement of FCC§15.19(a)(3) and FCC§18.212(a), following statement will be included in the user manual of the vehicle.

NOTE

This device complies with part 15 and part 18 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

In accordance with requirement of FCC RF exposure, following statement will be included in the user manual of the vehicle.

Radiofrequency radiation exposure Information:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines as This equipment has very low levels of RF energy.

In accordance with requirement of FCC§18.213, following statement will be included in the user manual of the vehicle.

This equipment has been tested and found to comply with the limits for a wireless power charger, pursuant to part 18 of the FCC Rules.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio communications, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Manual Requirement of FCC / ISED
Model: YBN00

Our product is one of vehicle parts incorporated into the vehicle as original equipment. Therefore, we will not supply the user manual. However, we will ask the vehicle manufacturer to include following statements in the user manual of the vehicle in accordance with ISED requirement.

1. Requirement for User manual of the vehicle

1.1. ISED Requirement

In accordance with requirement of RSS-GEN, following statement will be included in the user manual of the vehicle.

NOTE

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

In accordance with requirement of RSS-102 of the ISED radio frequency Exposure rules, following statement will be included in the user manual of the vehicle.

This equipment complies with ISED radiation exposure limits set forth for an uncontrolled environment and meets RSS-102 radio frequency (RF) Exposure Guidelines as This equipment has very low levels of RF energy.
