

## 15.407 (h) (1) Compliance Statement

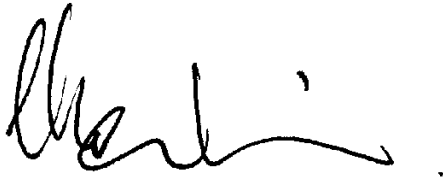

Proxim Wireless declares that the HZB-L49U24U50 product employs a TPC mechanism as required by CFR 47 Part 15.407 (h) (1) for 5.25-5.35 GHz and 5.47-5.725 GHz bands.

The HZB-L49U24U50 product is capable of over 18dB power adjustment range.

The HZB-L49U24U50 products come with models with integrated antenna as well as with external antenna.

For integrated antenna models, since the antenna gain is 0dBi, and the overall EIRP is below 27dBm, the product TPC function is not required, though the product can still offer power downward adjustment capability of up to 18dB.

With regards to external antenna version, in addition to the same wide range for power adjustment, we also provide instructions to professional installers in our product guide and regulatory manual, to ensure of proper system setup and EIRP/TPC compliance as well as greater than 6dB TPC control range from 30dBm EIRP downward.
