Re: Class II Permissive Change Filing  
FCC ID: HZB-MP11R-ABG  
Grant Date: 9/30/2004

Dear Reviewer,

This is to request a Class II permissive change to add a new variant. This new variant uses the same 802.11a/b/g mini-PCI card, so the RF characteristics remain the same. The only change is sole digital portion related. The daughter board and the main board are consolidated into one main board, but with the same size and layout of the main board, in order to fit into a smaller enclosure.

If you have any questions regarding this application, please feel free to contact me.

Sincerely yours,
