Re: Class II Permissive Change  
FCC ID: HZB-MP50XXSU  
Original grant date: 10/25/2007

Dear Reviewer,

This is a Class II permissive change application. The only change is to disable 2400-2483.5 MHz band with software only, no component changes or hardware modifications to the original device. The software update is not accessible to the end users, it will be done at the manufacturing site by the manufacturer.

If you have any questions, please let me know.

Sincerely,

A handwritten signature in black ink, appearing to read "Helen Zhao".
