TO WHOM IT MAY CONCERN

Re: FCC ID: HZB-PROXMB82

This device is restricted to **indoor** use due to its operation in 5150 to 5350 MHz and 5470 to 5725 MHz frequency ranges in accordance with latest FCC regulations.

Host systems using Proxim firmware with this 802.11abgn 3x3 miniPCI module that are sold in the US do not have country code settings and are factory configured to only operate on the channels allowed by the FCC. Master devices with a US SKU that contain the 802.11abgn module are limited to the following operating channels:

- 1 - 11 (2412-2462 MHz) in the 2.4GHz band
- 36 - 64 (5180 - 5320 MHz) in the 5150-5350 MHz band
- 100 - 116 (5500 - 5680 MHz) / 132 - 140 (5660 - 5700 MHz) in the 5470-5725 MHz band
- 149 - 165 (5745 - 5825 MHz) in the 5470 - 5725 MHz band

Sincerely,

Ivaylo Tankov  
Senior Regulatory and Compliance Manager  
Proxim Wireless Corporation
