RE: Product Installation and Maintenance Manual Update for HZB-S24-08

After the application for HZB-S24-08 was submitted to FCC, we updated our product manual to comply with FCC requirements raised while a previous application was in review. Since our LYNX.sc *Installation and Maintenance manual* covers the whole spread spectrum LYNX.sc product line, these changes applies to the product manual submitted for this application as well. Please find in the attached an updated page of page 3-22 for section 3.10. Please use this page to replace the same page of the submitted manual.

Yours truly,

Caroline Yu
International Product Manager
Western Multiplex Corporation
