**Cc:** 'ruby@celectronics.com'  
**Subject:** FCC ID: I28-R2844Z (revised)

Mr. Ramirez:

In order for processing of this permissive change application (FCC ID: I28-R2844Z) to continue, the following issue(s) will have to be addressed:

- 1) The sample (production?) label has the FCC ID printed as: "128-R2844-Z". The "1" at the beginning must be changed to an "I", and the second "-" must be removed, as it is not part of the original FCC ID. Please submit a new sample label. Also, the statement required by FCC Section 15.19(a)(3) must be included on the label.
- 2) Confidentiality for the schematics, block diagrams and operational descriptions were requested on the original submittal under this FCC ID. Please either submit a letter requesting that these exhibits, included in the present permissive change application, be held confidential, or send a letter stating that confidentiality of these exhibits is no longer wanted.
- 3) The schematics submitted did not seem to include the RFID section, or the antenna board. Please submit these so that they may be compared with the old schematics.
- 4) The internal pictures submitted did not include one side of the RFID board, nor did they include the antenna board. Please submit additional pictures.

The item(s) indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 60 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Please upload responses and/or exhibits to the electronic filing website. Your correspondence number is I28-R2844Z-1.

Best regards,
