RE: FCC ID: I28MD-ZLAN11G_ATCB003444

Attention: Kathy Grzovic / Desmond Fraser

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that in order for a device to have full modular approval as requested in the modular request letter, it must contain all 8 aspects of the modular approval Docket. Please note that the modular approval docket states clearly "The modular transmitter must have its own power supply regulation." Please note that the request letter indicates that this device does not have its own power regulation capabilities but relies on the host for regulated voltage. Please note that 'accept' regulated power is not the same as having its own voltage regulator. As such this device does not meet all 8 criteria for modular approval and would be restricted to a limited modular approval. Please correct the request letter to request limited modular approval and remove the statement that the module meets all 8 criteria.

Response: Please review the revised FCC & IC modular approval request letters.

2. FYI - Please note that as this device does not meet all 8 criteria (i.e. no internal voltage regulation), it should also be tested for radiated spurious emissions in the host. Has this been addressed?

Response: Please review the revised test report uploaded with this response.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination.

Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
